RESPONSIBLE SINCE 2003

SUSTAINABLE TEXTILES PRODUCED RESPONSIBLY

2023 COLLECTION

## Welcome to Elvang Denmark

We create luxurious sustainable textiles in a timeless Danish design. Made from exquisite natural alpaca wool, organic cotton and linen fibres.

Since the very beginning in 2003 we have placed responsible thinking in the centre of everything that we do.

This has led to the highest possible level of recognition within the World Fair Trade Organization (WFTO) as guaranteed member.

The WFTO recognition and our participation in the UN Global Compact Initiative ensure the protection of people, animals and the environment.

Sustainability is a goal that can be achieved by *acting* responsibly. And that is what we do.

Tina & Lasse Elvang

At Elvang we have taken responsible thinking a step further  
by working with vulnerable women in Peru to help them  
built a revenue base. We call it repurposing.

# The Floor Runner and Seat Pad Collections

## WALNUT & HAZELNUT FLOOR RUNNERS

Our Walnut & Hazelnut floor runners are handmade in Portugal and produced of 100% upcycled fibres / surpluses of the textile industry. The rugs are handmade in the North of Portugal within a family business using a traditional wooden loom. No electricity is involved - only pure muscles' sparks! The rug is suitable as a bathmat, a kitchen rug or in any other room for cosiness and decoration.

Consistent with our responsible approach to production the rug is made of 100% textile waste from the textile industry. The rug being made from upcycled material means that the composition will vary between a mix of cotton, polyester and viscose always woven together with jute.
