VLAEMYNCK

A FRENCH INDUSTRIAL SITE

The history of Vlaemynck is intertwined with that of the luxurious palace hotels of the Côte d'Azur. As a **historic manufacturer** of parasols and cushions for professionals, Vlaemynck has gradually extended its range of outdoor furniture, applying the same quality standards upon which its reputation was built.

VLAEMYNCK IN A FEW DATES

VLAEMYNCK SOME KEY FIGURES

- More than **55 years of experience working with professionals**
- **40 000 new parasols opened** every year on the Côte d'Azur
- **50 employees providing** a custom-tailored service to **enhance your outdoor living**
- In 25 years, nearly **1 million parasols** have passed through the hands of Vlaemynck's seamstresses
- More than **350,000 m² of fabrics processed** each year in Vlaemynck's workshops

MULTI-MATERIAL EXPERTISE

From humble beginnings as a **textile manufacturer**, to **France's leading player in teak furniture**, Vlaemynck now offers its own collections, drawing on its long-standing **expertise in a wide range of materials**.

LONG-STANDING TEXTILE EXPERTISE

Sewing, cutting out, assembling cushions, parasols, chairs and sunloungers : every day, on the Vlaemynck production and assembly site in the south of Burgundy, men and women devote themselves to carefully repeating these actions that demonstrate their mastery of the art. This is the company's strength : to master each stage of the production (textilemaking, assembly and finishing).

The colour chart of Vlaemynck fabrics is the result of **expertise developed over several decades** and an unflinching commitment to quality and excellence, guaranteeing its customers **exceptional quality products** that combine comfort, easy cleaning and timeless style.

Because of this know-how, Vlaemynck has developed high-quality partnerships over the years with companies that meet the same high standards.

Vlaemynck has selected fabrics with unique properties to meet all requirements and suit all kinds of outdoor furniture.

100% ACRYLIC FABRICS

Composition : 100% acrylic

The threads that make up the fabric are created from solution-dyed fibres. The colour pigments are thus directly incorporated into the threads, ensuring extremely long life for the fabric.

- Easy cleaning : **machine washable** at 30°,
- **Resistance and reliability**, solution-dyed fabric : **unrivalled resistance to UV and weather**,
- **Water-repellent** : fluorocarbon treatment to prevent absorption of liquids.

For which products? Cushions, sofas, deckchairs and parasols.

SUNBRELLA® NATTE QUALITY FABRIC

Composition : 100% acrylic

- Reliability : fabric created by **Dickson, leading French manufacturer on the international outdoor fabrics market**,
- **Easy cleaning** : machine washable at 30°,
- **Resistance and reliability**, solution-dyed fabric : **unrivalled resistance to UV and weather**,
- **Water-repellent** : fluorocarbon treatment to prevent absorption of liquids,
- **Soft feel**, like a fabric designed for indoors, without compromising its resistance to outdoor living.

For which products? Cushions and sofas.

BATYLINE® ISO FABRIC

- **Anti-fungal** : prevents the development of mould,
- **Extremely robust** : maintains tension thanks to its ultra-regular weave, resistance to UV and extreme temperatures,
- **Keeps its shape**,
- **Comfortable** : flexible seat, remains cool even in summer,
- **Easy cleaning** : wash with soapy water and a soft sponge.

Composition : 72% Chlorofibre (PVC) / 28% Polyester

This product has been treated with a biocide; active ingredient: 4,5-dichloro-2-octyl-2H-isothiazol-3-one (CAS Number: 64359-81-5).

For which products? Chairs and armchairs, sofas, deckchairs and cushions.

BATYLINE® EDEN FABRIC

- **Silky feel** : softness similar to that of a fabric,
- **Comfortable** : double weave of coated threads and synthetic threads that **dry quickly** and **do not stick to the skin**,
- **Easy cleaning** : wash with soapy water and a soft sponge,
- **Robust** : lint-free, resistance to humidity and mould,
- **Durable** : solution-dyed fabric, **resistance to UV and extreme temperatures**,
- Now also available in a **Waterproof version** for the RIVAGE, LODGE and GORDES collections

Composition : 72% Chlorofibre (PVC) / 20% Polyester / 8% High-tenacity polyester

This product has been treated with a biocide; active ingredient: 4,5-dichloro-2-octyl-2H-isothiazol-3-one (N° CAS : 64359-81-5).

For which products? Cushions, deckchairs, sunloungers, chairs and armchairs.

OTHER OUTDOOR TECHNICAL FABRICS

Fabrics specific to certain collections : OTF or Sling finish OTF.

All technical outdoor fabrics at Vlaemynck meet the following requirements:

- Low deformation
- Light and flexible
- Solid
- Resistance to UV and weather

For which products? IBIZA (sunloungers only), MARIETA, MILANO, SAN JOSÉ, TEQUILA and VANITY collections

OTFs contain over 70% chlorofibre (PVC) and over 20% polyester.

TEAK EXPERTISE

An expert in teak, Vlaemyck is the first **brand to propose outdoor teak furniture** in France. For over 30 years, the teak used by Vlaemyck has been sourced from the same factory in Indonesia, **a trusted partner**, to guarantee that all the teak used for Vlaemyck collections comes from legal plantations, protecting the long life of this high quality tropical wood.

Teak is an **ancient wood**, introduced in Indonesia in 200 AD. It was initially used to build houses, but has gradually become popular for the construction of bridges and boats, and even the creation of outdoor furniture today.

Teak has **exceptional properties**. Naturally rot-proof thanks to the oleoresin it produces, it does not rot in contact with humidity, even in extreme conditions. It is also highly resistant to insects, fungi and weather.

The king of wood for outdoor use ; Teak ; requires no particular maintenance to preserve its natural properties : solidity, long life and simplicity of use.

Comfortable and widely appreciated for its aesthetic appeal, teak **feels soft and silky**, remains cool even in summer, and its honey colour with copper tones takes on an exquisite grey patina over time if it is not treated.

The teak used by Vlaemyck is:

- Natural : untreated and not oiled,
- Grade C : it has knots and other natural patterns, conferring elegance and authenticity. Grade C teak can be taken from trees less than 30 years old and does not necessarily come from the trunk, which is why it is pale in colour with patterns.
- Oiled teak table tops : a protective oil is applied to the table top to protect it for longer against liquids and to postpone the development of the grey patina. Regular treatment is required to preserve its natural honey tones. Vlaemyck oiled teak table tops are Grade A : the wood used comes from the centre of a tree between 30 and 50 years old, its colour is uniform and it has no knots or patterns.

Vlaemyck has become an expert over the years in the most prestigious outdoor materials, and the teak products illustrate this **know-how**.

MULTI-MATERIAL EXPERTISE

METAL

Supported by the expertise of the Fermob group, Vlaemynck uses metal for its collections. Extremely sturdy and easy to clean, it is a perfect material for outdoor furniture.

Metal also offers a certain environmental benefit, being more than 98% recyclable.

Vlaemynck collections are mostly made of **aluminium** and **steel**.

Aluminium

- Light
- Keeps its shape and withstands micro-impacts

Steel

- Highly resistant
- Able to withstand repeated loading without deformation

The outdoor paint used by Vlaemynck for its steel and aluminium furniture is resistant to weather, rust and corrosion.

Vlaemynck also proposes furniture made from **galvanised** and **stainless steel**, two materials ideal for use in salty environments. Resistant to sand, salt and corrosion, these materials are particularly suited for beaches and terraces by the sea.

OTHER MATERIALS

THE WICKERWORK

Inspired by traditional furniture made from wicker and other natural fibres, the Nylon® Wicker weave is a long-lasting alternative that is easy to clean, ensuring impeccable aesthetics.

Composition: 100% polyamide.

DEMOISELLE Collection

NEW SOLUTION-DYED FABRICS 2024

Vlaemynck, a firm believer that every moment spent outside is precious, has put all its creative expertise into selecting fabrics that are both elegant and durable, while remaining easy to clean.

Particular attention to details has been put into each of our new fabrics. The natural textures, sophisticated colours and subtle patterns illustrate our promise to propose a range of unique fabrics to personalise your outdoor areas to suit your style.

At Vlaemynck, aesthetics and quality go together, and all our new solution-dyed fabrics meet the same standards of resistance. Unrivalled performance against UV and weather, excellent resistance and easy cleaning... so many benefits to ensure the success of our 100% acrylic solution-dyed fabric.

TEXTURES COLLECTION

Wicker
M0 605

Pearl
M0 604

- A knit finish combined with an ultra thick grain (between 480 and 680g/m²) for an effect brimming with character,
- Two contrasting weave patterns : one geometrical and regular, the other natural and irregular,
- Warm and cool tones for a wide range of colour combinations.

GEOMETRY COLLECTION

Beige chevron
M0 603

- A subtle chevron pattern, creating the illusion of stripes ; the brand's iconic pattern,
- Luminous tones for a multitude of colour combinations,
- The appearance of an indoor fabric to bring extra comfort to your outdoor furniture.

MIX COLLECTION

Terracotta
M0 773

Meadow Green
M0 1354

- Unique shades, created by using threads of different colours,
- Multiple colour combinations possible,
- Thick fabric grain (360g/m²) for unequalled comfort.

CONTRACT UNIT, DEVOTED TO PROFESSIONAL PROJECTS

SUPPORTING YOU IN ALL YOUR PROJECTS

To **professionals in the hotel and restaurant industry, retailers and shop-fitters, architects and landscape designers**, who themselves deal with hotel and restaurant professionals, **managers of public spaces** or **office** exteriors, to all those who sponsor projects that involve welcoming the public outside, all those who design outdoor spaces, all those who want the best for their customers, their guests, strollers, passers-by... the **Contract Unit** is for you, all over the world.

As professional outdoor spaces are the showcases of both private and public institutions, they must be personalized and attractive, and thought must be given to their every aspect - furniture, lighting, separators, parasols and decorative accessories - to create uniquely styled, complete layouts for all professional outdoor spaces.

To coordinate our activity and offer the highest level of service, **a team of 50 people** within the Contract Unit is **exclusively dedicated to consulting and professional projects** : layout advice, developing 2D/3D plans and 3D files for your mock-ups, bespoke products, customised services, installation and assembly.

ARCHITECTURAL SERVICES & CONTRACT PROJECTS

Architects, landscape designers, project retailers, designers and decorators play a key role in the choice of furniture for large layout projects.

This is why the **Contract Unit team supports them** by keeping the documentation up to date (metal and colour charts, catalogues, technical documentation, etc.) and by providing them with 3D files for drawing up their layout plans for projects in the hotel and restaurant industry, for public spaces or office exteriors.

Find all our collections modelled on Pcon.

LE MAS DES HERBES BLANCHES - JOUCAS

TAILOR-MADE ADAPTATIONS AND MANUFACTURING

THERE'LL BE NO SENSE OF DÉJÀ-VU

Our **manufacturing expertise** means that you can choose customised options down to the very last detail.

Coordinate your cushions with the fabric for your chairs and parasols.

Even better : make your mark by adding your logo or a graphic element.

Our furniture blends into your decor to enhance it: your terrace is unique, a reflection of your company.

VILEBREQUIN LA PLAGE

L'Ondine, Cannes

A WIDE CHOICE

- Printing on fabric (solution-dyed, Batyline® or special awning)
- Adding an adhesive to glass or a separator,
- Embroidering cushion or mattress covers...

All requests will be examined by the Bespoke Project department.

There is a wide range of solutions which can be adapted to the material and space (restaurant, bar, beach, lounge, swimming pool).

GLOSSARY

A

ANODISED ALUMINIUM

Anodising is a process by which an ultrathin coating is applied to aluminium, giving it a specific colour, hardening its surface (fewer scratches) and stabilising its appearance over time. This treatment is ideal for saline environments.

B

BRUSHED ALUMINIUM

Brushed aluminium is an aluminium that has been mechanically treated with metal brushes.

G

GALVANISED STEEL

Galvanised steel is crude steel with anti-corrosion treatment (a layer of zinc is applied to prevent it from rusting). Before painting, it has an untreated, matt grey appearance.

H

HIGH-RESISTANCE POLYURETHANE FOAM

This foam returns to its original shape after being compressed, even after extended use. All our cushions are designed to resist compression of 30 kg per m³.

HPL TABLE TOP

High-pressure laminate (HPL) is a composite material made up of several layers of kraft paper and a thermosetting resin-impregnated decorative paper.

L

LACQUERED ALUMINIUM

Lacquered aluminium is an untreated aluminium that has been painted.

P

PIPING

A narrow cloth strip between two pieces of fabric, slightly protruding at the seam.

POLYPROPYLENE

Polypropylene is a fully recyclable, lightweight, convenient plastic. It is highly resistant to impacts, frost and heat and is easy to clean. Its high resistant properties make it ideal for use in saline environments.

S

STAINLESS STEEL

Stainless steel is a steel and chromium alloy that is highly resistant to rust and corrosion.

TO PLACE AN ORDER

- ① **Choose your structure colour** - example :
- RIVAGE - Sunlounger - Basalt frame - **V5162413**

- ② **Choose your fabric type** :
- 100% Acrylic fabric or Sunbrella® Natté quality - **M0**
 - Batyline® Eden - **BE**
 - Batyline® Iso - **BI**
 - Batyline® Eden Waterproof - **BEW**

- ③ **Choose the colour of the fabric** :
- Refer to the Vlaemynck colour chart

A few composition suggestions with Rivage

LAYOUT N°1

LAYOUT N°2

LAYOUT N°3

COMFORTABLE CUSHIONS DESIGNED FOR AN OUTDOOR USE

3 choices of outdoor fabrics:

- 100% Acrylic fabrics
- Sunbrella® Natté quality : 100% acrylic
- Batyline® Eden Waterproof : 72% Chlorofibre (PVC), 20% Polyester et 8% Polyester high-tenacity, backing Waterproof.

High resilience polyurethane foam padding :

Chosen by Vlaemyck for its ability to return to its original shape after deformation, even after long periods of use. Cushion thickness: 12 cm.

Backrest polyurethane flock foam filling.

The modules are supplied with Anti-vibration glides : double glides available to connect the modules together and make the layout more stable.

TEXTILE / PIPING COMBINATIONS

Piping finishes as standard for Solution-dyed and Natté fabrics only (excluding Batyline® & Textures collection). Finishes without piping for special contracts and on request.

THE COLLECTIONS

SHADOW

THE PARASOLS

At Vlaemynck, our **exquisite finishes are testament to our expertise**, from the material we source down to the tiniest details on our products.

Although a parasol has a practical purpose, it also has a key role as part of the decor and acts as the centrepiece of a terrace. With its enormous proportions and its incredibly important role, each parasol requires particular attention.

That's why most of our **Vlaemynck parasols have a white braid finish**, the brand's iconic signature, and are **delivered with their own storage cover** (excluding the PAXI collection).

UNIVERSAL BASES

MOULDED PARASOL BASE

Rotomoulded polypropylene structure
 Built-in closing storage compartment
 Aluminium plate lid
 For poles : \varnothing 23 to 45 mm
 Ballast: container to be filled with water or sand - can weigh up to 40kg

V30430 White

CONCRETE PARASOL BASE 30 KG

White sheath for White base, stainless steel sheath for Anthracite base
 For poles : \varnothing 25 to 55 mm

V30330 White V30331 Anthracite

CONCRETE PARASOL BASE 35 KG

White sheath for White base, stainless steel sheath for Anthracite base
 For poles: \varnothing 25 to 55 mm

V30350 White V30351 Anthracite

Compatible with :
 SET OF 4 WHEELS

CONCRETE PARASOL BASE 60 KG

Stainless steel sheath
 For poles: \varnothing 35 to 70 mm

V30411 Anthracite

Compatible with :
 SET OF 4 WHEELS

UNIVERSAL BASES

SET OF 4 WHEELS

For concrete parasol bases 35 and 60 kg

V30411/R

Compatible with :

CONCRETE PARASOL BASE 35 KG

CONCRETE PARASOL BASE 60 KG

CONCRETE PARASOL BASE 45 KG

Stainless steel sheath
Integrated wheels and handles
For poles: \varnothing 25 to 55 mm

V30321 ● Anthracite

LIRO CONCRETE PARASOL BASE 45 KG

Polypropylene shell
4 wheels with brakes
Retractable handling rod
For poles: \varnothing 25 to 53 mm

V30060 ○ White V30061 ● Anthracite

LAQUERED STEEL PARASOL BASE 28 KG

Anthracite sheath
For poles: \varnothing 45 to 55 mm

For poles: Ø 80 mm
Special beach base

V30267 ● Steel

BASE FOR OFFSET PARASOL

Steel frame
8 cast concrete slabs
4 adjustable floor pads
Twister not included

V30150 ● White

V30151 ● Anthracite

Compatible with :

PARASOL 300 X 300 CM - BORÉE
PARASOL Ø 350 CM - BORÉE
PARASOL 300 X 300 CM - PAGODA

BASE WITH COVER

Steel angle frame
Steel base
Removable aluminium sheet cover
Stainless steel integrated wheels
Base can be weighed down with 8 40x40 H6 cm concrete slabs (not included)

V30160 ● White

V30161 ● Anthracite

Compatible with :

PARASOL 300 X 300 CM - BORÉE
PARASOL Ø 350 CM - BORÉE
PARASOL 300 X 300 CM - PAGODA

MAGNA PARASOL BASE

Non-contractual visual

Concrete base with tilting base tub for easy installation
Integrated handles and wheels

V3009 ● Concrete

Compatible with :

PARASOL 500 X 500 CM - MAGNA

UNIVERSAL BASES

SEALING PLATE

Steel

Weight : 7kg

V30037  Steel

Compatible with :

PARASOL 300 X 300 CM & Ø350 CM - BORÉE

PARASOL 300 X 300 CM - PAGODA

PARASOL 500 X 500 CM - MAGNA

EASY OPEN ADAPTER FOR BASE WITH COVER

Steel frame

V30160/F  White

V30161/F  Anthracite

Compatible with :

PARASOL 400 X 400 - EASY OPEN

CLEANING OUR FURNITURE'S SURFACES

FABRICS

PRE-WASHING AND ROUTINE CLEANING – Cushion in place on the furniture

Vacuum your cushion. If there are any stains, quickly dab them to absorb the liquid with a paper towel, cloth or towel.

Wash the fabric with a soft brush and soapy water (washing-up liquid or mild soap), giving special attention to any stains.

Rinse with clean water.
Allow to dry in the open air.

WASHING – Removed cushion cover

Machine-wash on a gentle cycle compatible materials, following the recommendations on the label. Close the zip fasteners first. **Allow to dry in the open air.**

Dry-iron the cover if required.

At the end of the season, wash the cushion covers before tidying away/storing your cushions indoors, protected from dust and moisture.

We strongly advise against:

- dry cleaning,
- the use of devices such as high-pressure cleaners, tumble dryers and steam irons
- the use of abrasive liquids.

OUTDOOR TECHNICAL FABRICS (OTF) AND BATYLINE®

Use soapy water or **Fermob multi-purpose cleaner.**

Spray or apply with a **soft sponge.** Rub gently with a soft brush.

Rinse with water.

Wipe clean.

Regular cleaning is recommended. Very dirty surfaces may require a second application.

TEAK

If you have left your garden furniture outside, it will have turned grey over time. You can get it back to its original colour by following the following steps :

Wash the teak
with a brush and soapy water.

Sand the teak with sandpaper (grade 120 or 240 depending on how grey it is) in the direction of the wood grain.

Wipe the sanded area
with a clean cloth
to remove impurities.

P137 : see our specific teak products

You can also use a degreasing product, which is more aggressive to the wood and is therefore not recommended as an initial approach.

METAL

To preserve their original appearance, most of our materials require **basic precautions**. They can be damaged, to a varying extent, depending on the product type, by:

- **mechanical factors:** wear and tear, scratches, impact, distortion, etc.
- **chemical factors:** acids, bases, solvents, etc.

Our surfaces must therefore be cleaned in accordance with the following principles :

- **Systematically carry out a preliminary test on non-visible** and restricted areas to determine compatibility (e.g. under the seat or table top),
- **Do not use abrasive products** or products which may affect the condition of the surface (abrasive sponges, wire wool, pads, scouring creams or powders, dyed textiles which may leave marks, etc.),
- **Do not use aggressive chemicals** (solvents, alkaline detergents, etc),
- Beware of retention zones in which cleaning products can be trapped, leading to further damage,
- **Comply with the conditions of use** of the products used (dilution, diffusion, application time, etc.),
- **Do not use high pressure equipment,**
- If your table has a solid top, tilt it slightly, to prevent water from accumulating when it is not in use,
- Avoid prolonged contact with objects that may retain water or moisture (such as flower pots or trivets),
- **Never cover the furniture with non-breathable tarpaulin** or plastic sheeting that will retain moisture,
- Clean off any bird droppings as soon as possible, as these are particularly corrosive.

Our recommendations are as follows :

Use soapy water or a
detergent with a neutral PH
(5 to 8).

*(VLAEMYNCK Multi-purpose cleaner
or household items such as dishes or
windows)*

Apply with a **soft sponge** or a white soft
cloth made of a non-abrasive material.
Rinse with water.

Wipe carefully with
a microfibre cloth to prevent
limescale marks.

FOCUS ON MULTI-PURPOSE CLEANER

- Allows you to clean all your Vlaemynck furniture
- Effective on metal (aluminium or painted steel), Outdoor Technical Fabric (OTF), woven resin, synthetic fibres... (Do not use on teak)

The following products may be used but they should be diluted and subject to extensive compatibility testing:

- Ethanol
- Bleach (98% dilution)

We strongly advise against the following non-exhaustive list of products; unless appropriately diluted, they could damage our materials:

- Alcohol, isopropanol
- Petrol, white spirit, solvents, dissolvents
- Hydrocarbons, caustic soda, ammonia
- Alkaline detergents (pH>9)
- Acids
- Polish
- Products to remove graffiti
- etc.

CARE AND MAINTENANCE

V3953NT - TEAK CLEANER

Cleans natural or oiled teak
1 litre

V3953HT - TEAK PROTECTOR

Protects oiled teak and maintains its original colour
1 Litre

V3953KT1 - COMPLETE TEAK RENOVATION AND MAINTENANCE KIT

Revives oiled teak
INCLUDES :
1 litre of teak cleaner (ref. V3953NT)
1 litre of teak protector (ref. V3953HT)
