A2 SMÅLAND

A2 is a Swedish furniture and interior detail brand established in 2008 by the design company A2 designers.

It all began as a dream of a furniture collection with creative, distinct and unique objects genuinely produced by local craftsmen.

Our heart and history belong in Småland. We design and produce everything in Sweden, and we are very happy and proud of our Swedish production. The original dream is as important now as it was back in 2008.

STRONG IDENTITY FOR THE FUTURE

Our vision is to be a brave and bold brand that challenges the interior world with interesting products.

We simply want to produce new long-lasting high quality objects with a strong identity. Objects for today and most importantly for the future and a long time to come.

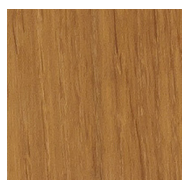

A2 is designed and managed by designer and engineer Sara Larsson. A2 is owned by A2 designers AB.
